MARSHDALE COURT GUIDELINES

EPRD classes and programs take priority over drop-in play. EPRD may change the schedule as needed. Courts are available for drop-in play on a first come-first served basis. Individual court reservations are not available.

Any group that promotes or organizes play must submit a request for court reservation and/or park permit. No non-EPRD individual or group instruction is allowed. Visit www.evergreenrecreation.com for info on classes.

The following system should be used to match players with others of similar skill level. Advanced and Upper Intermediate players should use the 4 north courts. Intermediate and Social players should use the 4 south courts. The number of courts assigned to these levels may be adjusted based on the number of players in each level.

Pets and camp chairs are not allowed on the courts. All other EPRD park rules must be followed at all times.

Guidelines for Pickleball Play:

Regular scoring is standard across the U.S.

- 8 courts in play: when there are 12 or fewer paddles down (people who are waiting) regular IFP scoring is used with 11 points winning (win by two).
- 8 courts in play: when there are more than 12 paddles down, scoring changes to 9 points (win by one).
- If the scoring rules change after a game has started, players should follow the new rule.

Stacking of paddles is permissible and encouraged. However...

- If there are less than four paddles in front of a stack, the number of paddles behind the stack needed to complete a foursome moves to the front and that group goes out on the court first.
- If there are not enough paddles down behind the stack, players coming off the floor will fill out that group.
- In the event that there is an empty court AND there are 3 or less single paddles followed by a stack of 4, AND the scores on the two occupied courts are 5-5 or less, the stack may take the free court first.
- This is a social group, so in the event of stacking, please allow others to rotate into your group.
